Highly experienced in React, Next.js, Node.js & Python Backend, and AWS cloud-native. Experience in cross-functional agile development, leading & owning projects, and innovative problem-solving. Passionate about building high-quality user experiences and project optimization.

SKILLS

- **Frontend:** React, Next.js, Redux, CSS (SCSS, Tailwind), JavaScript, TypeScript, Vite, NX, Apollo.
- **Backend:** Node.js & Express, Python & Django, MongoDB, MySQL, PostgreSQL, Redis, REST APIs, GraphQL.
- **Cloud & DevOps:** AWS (EC2, S3), Kubernetes, Docker, CI/CD.
- **Testing & QA:** Jest, Vitest, React-testing-library, Cypress, Storybook, Accessibility Testing, TDD & BDD.
- **Analytics & Monitoring:** Datadog, Posthog, Google Tag Manager, Amplitude.
- **Tools & Workflow**: Git, GitHub Copilot, Jira, Figma, Slack.
- **Soft Skills**: Project-ownership, Product-thinking, Fast-learning, Communication, Cross-functional Collaboration.

EXPERIENCE

Frontend Developer

iwoca Limited, United Kingdom | August 2023 – Present

- Work within cross-functional agile teams to deliver key features for a React application portal used by major brokerages.
- Developed new streamlined interfaces that improved the broker journey, resulting in faster loan processing times.
- Led the migration from Next.js to Vite & Vitest, reducing test & build times by 40% and reducing bundle size.
- Active member of the UI and Frontend Standards teams to ensure clean, high-quality and consistent code.
- Upskilled team members by establishing best practices during code reviews.
- Work on the distributed Python & Django backend to deliver features and ensure seamless API integrations.

React Developer

Bluecrest Wellness, United Kingdom | June 2022 – August 2023

- Led the development of a Next.js Progressive Web Application for seamless transmission, viewing, and interpretation of Bluecrest test results taken by thousands of customers.
- Built a robust, WCAG-compliant, reusable React component library that significantly reduced development time.
- Built a React and Strapi-powered mini-CMS for the marketing team to develop and oversee a new company website.
- Participated in conducting technical interviews for the Lead React Developer position.
- Migrated the frontend codebase to an NX monorepo, standardizing shared modules across multiple apps.

Co-founder, Full Stack Developer (Part-Time)

Lagoscity Business Hub, Nigeria | January 2019 – June 2022

- Designed and built a Next.js and Express MVP for LBH market, an online e-commerce platform for small businesses.
- Migrated the project from React.js to Next.js, thereby improving load times and SEO optimization by ~50%.
- Developed RESTful APIs, integrated third-party services (Twilio, Stripe), and set up secure payment gateways.

Junior Software Developer

Montego Upstream Services, Nigeria | October 2018 – September 2020

- Developed a PHP & MySQL application to manage the company's pool cars.
- Developed a PHP & MySQL staff portal comprising modules for handling company processes like recruitment management, inventory management, issue tracking, and more.
- Created multiple websites and landing pages for the company and its subsidiaries.

ICT Intern (Internship)

Diamond Bank (Currently Access bank) plc, Nigeria | July 2015 – August 2015

- Gained hands-on experience with relational databases and basic querying operations and generated data spools for different departments in the company by retrieving and exporting data from the database.

EDUCATION

MSc. Advanced Software Engineering (Distinction)

University of Leicester, United Kingdom | January 2021 – May 2022

- **Capstone Project:** Remote Usability Testing and Evaluation Suite built with React, Express, Firebase, and GraphQL.
- **Award:** Recipient of the university's "*Computer Science Best Technical Project Prize 2022*" award.

BSc. (Hons) Computer Science (2:1 Upper)

Babcock University, Nigeria | August 2015 – June 2018

- **Capstone Project:** Online Law management System built with React and Express.

HIGHLIGHTED PROJECTS
